2015 同等学力英语真题考试二卷英译汉答案(权威版)

应该视工作为快乐的来源还是当成一种负担。繁杂的工作极度令人生厌，而且过量的工作会带来压力，甚至让人生病。然而，我认为，只要工作不超量，甚至是无聊的工作也比无所事事好得多。我们有时会在工作中感到一丝解脱；有时工作带给我们愉悦。根据我们从事的工作种类和办事的能力，我们有这样的感受，工作填补了白天的大部分时间，不需要人们去决定自己应该做什么。

2015 同等学力英语真题考试二卷作文答案(权威版)**一、环境能源类作文****Life in Masks (带着面具生活)**

There is a thought-provoking scene of which people have to wear a mask to live. As cart gives place to car, small workshop to factory, great changes of environment take place simultaneously including the water we drink, the food we eat and the air we breathe.

The main purpose of the drawing above can be briefly stated as follows. To begin with, it is high time for human being to pay close attention to the development and ecological environment. The GDP increase is achieved at the cost of sacrificing our living environment with its high-consuming and low-profit production pattern. As is depicted in the picture, the poisonous gas coming from the factories, automobiles pollute the air without which we cannot live. Even when they take photos, they cannot take off the mask. How to get out of the awkward situation?

Therefore, it is imperative that we should take some drastic measures. Relevant laws and regulations must be set up by authorities to ensure a possible balance between economy increase and our living environment. Also, the public should have a good knowledge of protecting environment and saving energies. Only in this way can we pursue comprehensive, balanced and sustainable development and make a harmonious society come true.
