## Part VI Translation

参考译文：

失业的社会成本远远超出了政府提供的福利和失业补贴。一个新的联邦调查显示，失业增加了离婚，虐待儿童，酗酒的几率。一些专家认为，这个问题只是暂时性的，新的技术最终将创造与它毁掉的数量相同的工作岗位。但是未来学家 Hymen Seymour 说，新技术的惊人高效率意味着所需人类劳动力的直接减少。Seymour 说“我们应该把这个看做一个机会，去给人们更多的闲暇。这可能并不简单，但社会将不得不在劳动分工上重新达成一致。”

## Part VII Writing

### A Way to Success

In the above story, Xiao Liu chose to be a translator on internet after graduation, which was not valued by people at that time, because they believed that entering a public institution is the best choice. However, five years later, Xiao Liu had his own company and succeeded.

Undoubtedly, I am quite in favor of Xiao Liu's way of success. As the issue of "starting a business" is becoming more and more important for college students, it's clear that we can promote it. From Xiao Liu's story, we can arrive at such a conclusion that sometimes choosing a way seldom chosen by other people could increase the chance of success.

As far as I am concerned, if you want to be successful, the following factors are the most important. On the one hand, you should be persistent in what you do, which is something that we can't do without. On the other hand, you should constantly absorb new knowledge especially in such an intensely competitive society. Only in these ways can you be successful.
